SEO Title

The SEO Title is used in place of your Title on search engine results pages, such as a Google search. SEO titles over 60
characters will be truncated. SEO titles between 40 and 50 characters with commonly searched words have the best
click-through-rates.

SEO Description

The SEO Description is used in place of your Subtitle on search engine results pages. Good SEO descriptions utilize
keywords, summarize the story and are between 140-156 characters long.

Description (193):

At first glance, modular arithmetic — the arithmetic of remainders — looks like a
mathematical curiosity. Adding numbers "modulo p" (where p is a prime) seems far
removed from machine learning...
